

# ESG: Securing Long-Term Commerciality and Sustainability of Solar Assets

Thursday, December 7  
11:30 – 12:30

SUSTAINABLE  
SOLAR —  
EUROPE 2023

1

What ESG considerations do institutional and private investors have for solar beyond the project supply chain?

2

As renewables serve a greater role in the European energy generation mix, how should the sector and long-term investors best respond?

3

Perception change: Shouldn't we be viewing ESG requirements as an opportunity rather than a limitation?

4

How should we best leverage on long term collaborations, sustainable partnerships and shared goals to meet the global demand of achieving a net-zero future in the EU?
